

A State Perspective on Transportation Technology

**Pam Fisher, CEcD
Director of Economic Development, INDOT**

February 10, 2020

INDOT's 2018-2045 Goals

- **Safe & Secure Travel**
- **System Preservation**
- **Economic Competitiveness & Quality of Life**
- **Multi-Modal Mobility**
- **New Technology**

Fuel Tax Replacement

- **INDOT's Next Level Indiana 20 - year budget includes:**
- **Immediate \$.10/gallon fuel tax increase**
- **Option for additional \$.01/gallon annual increase**
- **\$50 registration fee for hybrids**
- **\$150 registration fee for EVs**

The background of the slide features a low-angle photograph of several high-voltage electrical transmission towers and their associated power lines, stretching across the frame against a clear sky. The image is slightly desaturated, giving it a professional, technical appearance.

State Utility Forecasting Group

Required resources exceed available resources by 10,000 MW
by 2036.

=16 new power plants.
