POWERING YOUR GREATNESS

The Changing Energy Landscape

PacifiCorp has set ambitious decarbonization goals

- Carbon reduction goals
 - Down 69% by 2030
 - Down 100% by 2050
- Renewable energy goals
 - Currently: 3,422 MW (YE 2021)
 - Increase to 12,000 MW by 2040
- Energy storage goals
 - ~640 MW by 2025
 - Increase to 5,300 MW by 2040

Transmission Growth

Electrification

In 2020 launched Virtual Power Plant (VPP) project that standardizes on-site energy storage in each of the 600 apartments and features a first-of-a-kind network of solar powered battery storage systems, fully managed by Rocky Mountain Power.

In 2023 expand with Connected Communities project

Electrification
